The first humans are believed to have inhabited South Africa more than 100,000 years ago. South Africa's prehistory has been divided into two phases based on broad patterns of technology namely the stone age and iron age. After the discovery of hominins at Taung and australopithecine fossils in limestone caves at Sterkfontein, Swartkrans, and Kromdraai these areas were collectively designated a History of South Africa Wikipedia. The first humans are believed to have inhabited South Africa more than 100,000 years ago. South Africa's prehistory has been divided into two phases based on broad patterns of technology namely the stone age and iron age. After the discovery of hominins at Taung and australopithecine fossils in limestone caves at Sterkfontein, Swartkrans, and Kromdraai these areas were collectively designated a Africa Wikipedia. Africa is the world's second largest and second most populous continent being behind Asia in both categories. At about 30.3 million km², 11.7 million square miles including adjacent islands, it covers 6% of Earth's total surface area and 20% of its land area. With 1.2 billion people as of 2016, it accounts for about 16% of the world's human population. Redirect support Cambridge Core.
