Archaeology An Introduction

Archaeology An Introduction  "FREE" archaeology an introduction Archaeology, or archeology, is the study of human activity through the recovery and analysis of material culture. The archaeological record consists of artifacts, architecture, biofacts or ecofacts and cultural landscapes. Archaeology can be considered both a social science and a branch of the humanities. In North America archaeology is a sub-field of anthropology, while in Europe it is often ... Archaeology Wikipedia Archaeology or archeology is the study of human activity through the recovery and analysis of material culture. The archaeological record consists of artifacts, architecture, biofacts or ecofacts and cultural landscapes. Archaeology can be considered both a social science and a branch of the humanities. In North America archaeology is a sub-field of anthropology while in Europe it is often Biblical archaeology Wikipedia Biblical archaeology is the discipline occupied with the scientific investigation and recovery of the material remains of past cultures that can illuminate the times and descriptions of the Bible a broad swathe of time between 2000 BC and 100 AD. Other authors prefer to talk about the archaeology of Palestine and to define the relevant territories as those to the east and west of the River Aegean Prehistoric Archaeology This site contains information about the prehistoric archaeology of the Aegean. Through a series of lessons and illustrations it traces the cultural evolution of humanity in the Aegean basin from the era of hunting and gathering Palaeolithic Mesolithic through the early village farming stage.
